Santa Monica, CA — 1998–1999

- Hand-coded pixel-perfect websites for video streaming startup.
- Also: *intensive production art tasks, animation, photography, backend scripting, relational database development.*

// PERSONAL

I am curious, creative, analytical, and easy to get along with. Things I love: my family, my garden, motorcycle adventures, technology, art, history, travel, and learning new things. I am one course shy of completing a 2-year degree in Horticulture from UCLA.

Before establishing my career in digital development I held a wide assortment of jobs including: *licensed stockbroker, college math teacher, survival school instructor, carpenter, and heavy equipment operator.*
